

# Everything but cookie-cutter.

You're not interested in creating a cookie-cutter backyard and neither are we. You seek the surprising, the inspiring...the wow-factor. We take this philosophy and make it possible in the outdoors.

You're not investing in a landscape renovation project just to create something ordinary. So, mix and match. Flirt with style. We've played with shape, scale, texture and color to create stand-out-from-the-crowd landscape products. We invite you to do the same when designing your outdoor space. Over thirty patents, twenty-four colors, sixteen textures and more shapes and sizes than we can count, help you make it personal with endless options.

You expect looks that will last when it comes to your outdoor space. We've got you covered. Not even the harshest of climates and intense de-icing salt filled winters are a match for our high-quality landscaping collections. We've worked hard to maintain our reputation as one of the leading hardscape manufacturers in the world so you can have piece of mind.

Techo-Bloc was created by design aficionados for design lovers. There is nothing generic about us, or our clients. Ask us what we do, and we'll tell you: When it comes to the outdoors, we do everything but cookie-cutter.

"Good enough wasn't good enough anymore.
People wanted something different.
We were there, ready to deliver it on a silver platter."

As early as I can remember, I was captivated by the work of my father. He was a landscaper, and I had always admired the craft. So, I spent every summer break, from the young age of 8, learning and soaking in every

part of it. With just our shovels, our plate compactors and our rubber sledges, we were able to transform an ordinary property into something we were proud of.

At that time, I'd see the same brickstyle pavers everywhere I went. Every project looked so similar. No matter how creative we got, we were always limited by the materials. I realized that the ordinary properties we worked so hard to transform were still just that... ordinary. I was hungry for something different and the market was starved of choice. So, at 18, I sought to break the mold that was confining us and the rest of our industry. I became consumed with the idea of manufacturing a better paver; one with eye-catching colors and different shapes and sizes – pavers that had natural stone textures, pavers that broke the mold of the beloved brick.

A few years later, with the help of my wife, my father and the knowledge and experience we had gained – we began paving the journey of our lives and founded Techo-Bloc. Other companies soon appeared on the scene but we had a secret ingredient. We were landscape contractors first and we knew what was worth investing in: quality you can see.

As the years went on, I became obsessed with inventing designoriented products that would make installation challenges and engineering limitations obsolete. Our contractor friends were thanking us, we were attracting homeowner attention and the culture of the industry changed. Good enough wasn't good enough anymore. People wanted something different. We were there, ready to deliver it on a silver platter.

We haven't rested since. Our success has allowed our distribution network to grow to over 700 stores across the USA & Canada and our team has grown from 5 to over 600. We don't wake up in the morning to deliver "good enough". We work every day to impress, to surpass industry standards and to push the envelope beyond existing options for your outdoor space.

"WE WORK TO CREATE PRODUCTS
THAT NEVER LEAVE ANY
HOMEOWNER, CONTRACTOR OR
DESIGNER FEELING "STUCK" WITH
THEIR OPTIONS."

Keeping true to our beginnings, every day we try to find new ways to carve new molds because we're still not comfortable fitting into anyone else's idea of good enough.

C.C.M.

Make your wish list

Find the right pro

Breakdown your budget

And much, much more!

# Inspiration Starts here

Expert ideas to lay the groundwork for your dream project.

### Small touches, big impact

Great design is born from the finest of details. Adding design touches such as a toe kick and recessed lighting under your fire pit makes a subtle statement. Add in-ground lighting, drop lighting near stairs and up-lighting on pillars to see your backyard glow as soon as the sun sets. Details are not just details. They make you stop and notice the finer things in life.

Custom fire pit: Raffinato wall & cap in Beige Cream (p. 116 & p. 130) Travertina slab in Ivory (p.62) Furniture: jardindeville.com

2

## True Custom Kitchens

Building custom kitchen features like grill islands, counters, bars and pizza ovens, lets you entertain family and friends all summer long. Elevated entertaining is made to order with our complete collection of walls. Yes, the same walls that allow you to build retaining walls, fire pits and other vertical elements also let you build your al-fresco kitchen. So, mix and match just the way you like it!

# 3 Step it up a notch

Take your outdoor oasis to the next level. Raising and offsetting entertainment spaces, lounge areas and play zones at varying heights will give rise to endless enjoyable occasions. Statementmaking steps and walls are sure to stop the eye...as well as your guests in their tracks.

# 4 Your front yard shouldn't dictate your backyard

Your personality has distinct elements. Your outdoor spaces should, too. Why not change things up from front yard to back? Go classic in one and a little wilder in the other. Have fun deciding what to show off to the world and what to keep for guests' eyes only. Play by the rule of elegant yet exciting, and your style sense is sure to shine.

Linea paver in Shale Grey, p. 80 & Villagio paver Onyx Black, p. 90 (left)

Industria slab in Shale Grey, p. 56 & Victorien paver in Onyx Black, p. 89 (right)

## Drink, dine, de-stress: one space, endless experiences

Ever notice how the party always ends up in the kitchen? Now you can take that vibe outside with a patio that's smartly designed to serve as a bar, kitchen dining area and lounge, all in one. Craft up some cocktails while you're grilling, enjoy some gourmet snacks at the bar, then chill out around the fire later on, to keep things cooking all night long.

Kitchen/Bar: Brandon wall in Chestnut Brown, p. 104

Travertina slab in Ivory, p. 62 (left)

Aquastorm paver in Grey, p. 70 (right)

## 6 Go green!

Discover how fab 'enviro-friendly' can look. Go for the green and color outside the lines by adding some turf to the story. Blend grass elements with the new Aquastorm paver for driveways, or with other slabs for walkways and patios. The result is a low-maintenance, permeable solution that echoes your lawn, while offering improved drainage or rainwater harvesting.

7

# Get in touch with texture

From big space to small, you can always count on texture to make things more interesting. In classic, a-little-goes-a-long-way fashion, high texture slabs keep the space subtle and inviting, without ever bordering on boring. Then wall elements step in with smooth and rough finishes to punctuate the story with a touching ending.

Ocean Grande slab in Beige Cream p. 59 (Left & bottom right)
Blu Grande polished slab in Greyed Nickel, p. 48
& Borealis slab 5x30 in Riviera, p. 50 (Top right)

Furniture: jardindeville.com

# Make fire with stone

Convert a standard space into a warm welcome with a one-of-akind look. Choose any of our wall collections to create a fire feature that adds some spark to your yard and perfectly matches the rest of your landscape. Our walls are engineered to withstand firegenerated heat (with the help of a fire-proof insert), making them the perfect option for constructing a custom fire pit. So, whether you're seeking clean and contemporary lines or rustic earthy inspiration, evenings by the fire never looked so good.

Our products are designed to enable you to express your style, conceived with 3 key pillars in mind. Discover what makes a Techo-Bloc product, a Techo-Bloc product.

## The Design Pillars

# Color

# More than just shades of grey

Show your true colors. Take cues from your home's exterior to create mixed, matched, or contrasting color statements at ground level.

Industria paver 300x300

Beige Cream Chestnut Brown Onyx Black

Keep the fun all in the family. Shades of beige, black and brown make a play for the ground in strategically scattered style. A strong geometric pattern displays a slightly softer side when built from sophisticated shades of grey.

Greyed Nickel

Shale Grey

Onyx Black

Industria slab 50% of units cut diagonally

Industria slabs and Victorien paver

Shale Grey

Onyx Black

Create contrast with a standout framing trick that knows no borders. The Design Pillars

Scale

# Try this on for size

From larger than life to small and subtle and every size in between, there's a stone that fits your scene. Mix and match to max the impact.

Borealis - Smoked Pine 30 x 10 in - Cut in thirds

Basket of tricks. The under-over 'weaving' of the long, narrow stones punctuated with smaller contrasting squares is hypnotically stylish.

What makes this pattern so striking? We did the math and it's a perfect fit: the large stones are as wide as the small ones are long.

Para HD<sup>2</sup> Greyed Nickel 19 <sup>11</sup>/<sub>16</sub> x 29 <sup>1</sup>/<sub>2</sub> in

Para HD<sup>2</sup> Onyx Black 19 <sup>11</sup>/<sub>16</sub> x 9 <sup>13</sup>/<sub>16</sub> in

Squadra - Shale Grey  $3 \frac{1}{4} \times 3 \frac{1}{4}$  in

Valet - Onyx Black 6 ½ x 6 ½ in

It's hip to be square. Make a no-holds-barred statement with a bold combo of contrasting stone colors and squares that play on size.

The Design Pillars

# Texture

# The finishing touch

Our tempting textures are undoubtedly eye candy, but you'll find they're also a treat for your hands and feet.

Travertina Raw slab 30 x 30 lvory

Borealis slab 5 x 30 -Hazelnut Brandy

Square dance: The strikingly wood-like appearance of Borealis slabs fall perfectly into line when partnered with textured Travertina Raw slabs.

Pairing Blu Grande's ultrasmooth HD<sup>2</sup> finish with the rippled texture of Ocean creates a harlequin pattern that holds intriguingly infinite interest.

Ocean slab -Greyed Nickel

Blu Grande Smooth slab -Greyed Nickel

Blu Grande slab -Shale Grey

Where smooth, polished and slate meet: A calculated case of contrasts in equally sized stones makes a subtle yet ground-breaking statement.

# The design playground

Shapes and colors. Scales and proportions. Materials and finishes. This is where every element comes to play in a perfectly orchestrated game of style mastery.

Smooth

They may be concrete, but we prefer to call them trompe l'œil. These textures trick the eye with surface appearances that range from super smooth to ultra-detailed, and stay true even to the touch.

HD<sup>2</sup> Slate

Textures.

Ocean Waves

### Scale.

Mind the scale you're working with. Larger stones are fit for grand spaces while smaller ones are ideal for banding, contouring and mosaics.

# The only paver that checks all the boxes.

# What makes a quality paving stone?

## 

HD<sup>2</sup> is the diamond of paving stones.

Built 1.5 times stronger than the industry standard.

## **☑** Texture

Ready for a close-up?

Expect smooth & intricate finishes that you can feel with your eyes.

### Patent pending HD<sup>2</sup> fusion technology

The manufacturing process fuses two concrete recipes that, when combined, form one entity to create the optimal paving stone.

## ☑ Durability

Who says good looks can't last?

Its lower absorption rate means your paving stones won't degrade.

## 

Natural stones, you've met your match.

Color blends that stand the test of time against the elements.

# Permeable Solutions

Eye-catching and eco-friendly.

Give new meaning to the term "environmentally conscious" with permeable pavers that are as eye-catching as they are eco-friendly. With all the desirable features of our traditional pavers, plus the added functionality of effective surface water management, permeable pavers are a rock solid way to treat your home environment to an elegant upgrade while keeping the grander environment in mind. Stress less about flooding.

### Permeable Paver

Designed with larger joint space to allow storm water to percolate through.

### Small Aggregate (2.5-10 mm)

Filters out contaminants & debris from the rainwater.

### Medium Aggregate (5-28 mm)

Transition layer that further filters out pollutants.

### Large Aggregate (40-80 mm)

Reservoir layer for rainwater harvesting & the evacuation of excess water through a drain pipe.

### **Options**

# Outdoor features

#### Get it while it's hot.

We've got your ticket to VIP (Very Impressive Patio) status. Fire pits, fireplaces, pizza ovens and grill islands become the life of the patio party, while turning you into a star entertainer. Take your pick from clever or classic finishes, in colors made to match our other stone features. Light the spark — and don't be surprised if you find yourself inviting the neighbors over to celebrate nothing in particular.

#### Pizza ovens

#### Forno (sold separately)

#### Features:

Capacity: 4 medium pizzas Stainless Steel Chimney Electro galvanized painted steel Fire brick based insulation Thermometer

#### Comes with various pizza accessories:

37" long wood pizza oven brush 42" long wood pizza peel (spatula)

#### Manchester Rustic pizza oven (on order only)

Pre-assembled (sold separately).

The Chestnut Brown and Shale Grey fireplace differ both in color and slightly in design.

The Chestnut Brown uses York caps while the Shale grey uses Bullnose caps. Please refer to the Techo-Spec for details.

## Color Coordinate

For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Final color selection should be made with your contractor from product samples or at your local dealer from stocked product. This color chart serves as a guide for color selection across product lines.

## Warranty

#### A Standard of Care

The care of high quality concrete products is similar to the care of any product left in the environment 365 days and nights per year. Very mild cleaning using detergents, water and product specific chemicals is necessary and similar to cleaning patio furniture, a vehicle's chrome, plastic, or paint, etc. in order to enhance their presence and charm. Sealers of all types (high, middle, and low sheen, pigmented/tinted, penetrating or film forming) are available for additional protection from acid rain, stains and nature's worst. To get the most from your investments take care of them and they'll take care of you.

For any questions on industry-specific cleaners and sealers, see your local hardscape dealer/distributor, contact your contractor, contact us or search online.

It is contrary to Techo-Bloc's SOP (Standard Operating Procedures) to be involved in the care of a mature pavement or retaining structure. Care as mentioned above is the responsibility of the owner for any and all outdoor products.

NCMA disclaimer: "In areas where segmental retaining walls will be repeatedly exposed to snow (such as from snow plowing operations) consider periodically applying sealants or water repelling chemicals (silane or siloxane compounds) to the wall surface."

#### Color

Due to the inherent nature of printed literature and current digital media, Techo-Bloc cannot guarantee specific colour matching to printed representations of its colour swatches.

Each colour option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Therefore, colours samples shown are approximate representations of our standard colours and actual product colours may vary.

Final colour selection should be made at your local dealer from stocked product. Techo-Bloc always recommends immediately verifying the product and colour upon reception. If there are any discrepancies, contact your local dealer before continuing your project. Installation of the product constitutes your acceptance of the product as is.

#### **Efflorescence**

this warranty does not apply to efflorescence. Efflorescence is a natural occurring process in all concrete products which sometimes

appears in the form of a white powdery film on the pavement surface. Efflorescence is more perceivable in darker colours such as Onyx Black and Chocolate Brown as there is a higher level of contrast than with other blended colours. It does not, in any way, compromise the functionality or the structural integrity of the product. Although efflorescence cannot be prevented, it will wash off over time or can be cleaned with efflorescence cleaner. Techo-Bloc accepts no responsibility or liability for this condition.

#### Polymeric haze

Polymeric haze from the use of polymeric joint sand may appear on your concrete products if the sand was not removed from the surface of the paver properly. This does not, in any way, affect the integrity of the product or your installation. The hazing will weather away naturally with time and rain. It can be removed with a specialized cleaner; you are advised to contact your contractor or the polymeric sand company used for instructions & recommendations. Techo-Bloc accepts no responsibility or liability for this occurrence.

#### **Construction residue**

A by-product of cutting with a saw is residue-filled water or concrete dust. Residue filled water or re-hydrated dust can cling to the surface and leave a concrete stain. It is recommended to wash and remove the water or concrete dust from the surface of the pavers before it dries. Construction residue can also happen through soil disturbance or environmental elements. These contaminants should be removed immediately but do not affect the integrity of the product or your installation. Techo-Bloc accepts no responsibility or liability for these occurrences.

#### Proper color distribution and laying techniques

Proper installation enhances the overall color of pavement. Units should be randomly picked from at least two pallets when installing. This creates an attractive and subtle blending of color.

#### Compactor and snow removal equipment

Pavers with an embossed surface (high and low points) are more susceptible to scuff marks from vibratory plate compactors used in most concrete paver installations. Techo-Bloc recommends the use of a urethane mat between the plate and the paver surface during compacting. Contact your equipment supplier for more information about accessories for this purpose. Also, snow removal equipment should have the proper spacing, bumpers, and rubber blade guards to protect the surface of the pavers. Techo-Bloc is not responsible for damage caused by the misuse of compaction or snow removal equipment, which may leave scuff marks, or burns on pavers.

# "We only craft products we would want in our own backyards"

#### Techo-Bloc Warranty

TECHO-BLOC IS PROUD TO CERTIFY that our paving stones and retaining walls meet the latest industry standards in Canada and the United States of America. All Techo-Bloc manufactured landscape products comply with and surpass all applicable standards established by the CSA (Canadian Standards Association), ASTM (American Society for Testing and Materials) and the BNQ (Bureau de normalisation du Québec), recognized as the strictest standards throughout the world.

TECHO-BLOC OFFERS A TRANSFERABLE LIFE-TIME WARRANTY on the structural integrity of all paving stones and retaining wall stones it manufactures. It covers any disintegration and/or decomposition of the above-mentioned products resulting from natural causes and the abnormal deterioration of the surface due to the use of sodium chloride (NaCl) such as de-icing salt.

IF PRODUCTS PROVE DEFECTIVE, we will replace these units. Techo-Bloc's responsibility is limited to its products only and not to the costs related to the installation of those products. Techo-Bloc will honor this transferable lifetime warranty with a proof of purchase such as an invoice or delivery slip.

ALL EXCLUSIONS CONCERNING COLOR, efflorescence, polymeric haze, construction-born residue, compactor & snow removal equipment apply.

#### (S) Stonedge Collection Warranty

STONEDGE™ LANDSCAPE AND MASONRY products are manufactured under the highest standards of quality and workmanship. This warranty is offered to the original Consumer Purchaser (Homeowner), for as long as they own their home. STONEDGE™ warrants that the product is free from defects in material and workmanship, and is in compliance with the specifications of the Canadian Standards Association and the American Standards for testing Materials.

All exclusions concerning color, efflorescence, polymeric haze, construction-born residue, compactor & snow removal equipment apply. Unlike the Techo-Bloc products, Stonedge products are not warranted for the use of sodium chloride (NaCl) such as de-icing salt unless othewise stated. We recommend the use of these products in backyards where winter access is limited.

#### NOTE:

This warranty is for residential construction only. This warranty does not apply to any breakage, chipping, natural wear or other deterioration that were caused from improper design or installation which does not comply with applicable codes, the ICPI (Interlocking Concrete Pavement Institute), NCMA (National Concrete Masonry Association) and recognized work procedures. This warranty does not apply to any damage resulting from a natural disaster or from a deliberate and/or negligible act on the part of the purchaser, owner of the building, installer or any third party.

For industry information about efflorescence, polymeric haze or information pertaining to installation specifications, please visit www.icpi.org or www.ncma.org.

# Institutional, Commercial & Industrial

#### Where design meets durability.

With over 35 international patents, we aim to strike the perfect balance of natural hues and incredibly-authentic textures across a diverse range of scale. We then apply 30 years of manufacturing know-how to deliver best-in-class precision and quality backed by a warranty like no other.

Discover the widest selection of commercial grade pavements, permeable pavements and retaining walls – engineered to bring your design to life, even in the harshest environments.
